

# 180

## GAS DRIVEN ROCK-DRILL / BREAKER

- ▶ **ULTIMATE IN PORTABILITY**
- ▶ **ROCKDRILL WITH FLUSHING AIR**
- ▶ **PAVING BREAKER MODE**
- ▶ **RATCHET WHEEL ROTATION**

The SKIDRIL 180, is a self-contained (no hoses!) Rock-Drill and Paving Breaker in one machine.

As a Rock-Drill, the 180 can drill up to a 3-1/2" hole, by utilizing a built in air compressor, impact and ratchet wheel rotation.

As a Breaker the 180 works like conventional machine with 2 big exceptions:

- 1) It doesn't have a hose!
- 2) It doesn't require down pressure to run!

The 180 can be used with over 300 tools for every job from post driving to tamping, to cutting, breaking or drilling.

**Dimensions: 28.5X14"**

**Carburetion: 2 Stage**

**Fuel mix: 1:16-1:25 SAE 30/40**

**Impact energy: 27 FT-LBS**

**Starter: Recoil**

**Weight: 54 LBS**

**Ignition: Electronic**

**Fuel: Regular gasoline**

**Drill rate: 1 Ft./Min with 1" bit**

**Engine: 187 CC 2 stroke**

**Fuel tank: 0.40 Gal**

**Shank size: 7/8x4-1/4"**

**Air Filter: Semi-Wet**

**Impact Rate: 2700 BPM**
