

HD20

HYDRAULIC ROCKDRILL / BREAKER / DRIVER

- ▶ **GENERATES FLUSHING AIR**
- ▶ **VARIABLE SPEED AND IMPACT**
- ▶ **LOW WEIGHT**
- ▶ **DRIVES POSTS AND PINS**

- On-Off simplicity
- Patented compressor removes drill cuttings
- High efficiency
- Works as a rotary percussive drill or breaker, driver
- Adjustable impact force and rotation speed
- Uses standard rock-drill bits and rods
- Anti-Vibration handles
- Patented accumulator increases power and reduces recoil
- Sturdy steel tool holder
- Tools available for driving, tamping and breaking
- Runs off of skid steer, excavators, tractors and more

Dimensions: 22x16"

Hose connection: 3/8"

Working Pressure: 1600 PSI

Impact Energy: 50 Ft-lb

Drill Rpm: 0-400

Max Pressure: 2994 PSI

Req. Flow: 5.5-7 GPM

Hole flushing: Built in

Weight: 46 LBS

Shank Size: 7/8"x4-1/4"

Blows per minute: 1200

Speed settings: 3
